

## SECTION 1 Patient Information

Patient Name: Marcus Webb

Claimant ID: claimant-fraud-01

Policy Number: POL-51204-D

Date of Service: 05/01/2026

Policy Effective Date: 06/01/2026

Diagnosis: M54.5 (low back pain)

## SECTION 2 Adjuster Notes

Documentation for this encounter supports a brief, low-complexity office visit. The claim as submitted raises several concerns: the same visit code appears twice for the identical date of service; the complexity level billed is inconsistent with the clinical notes on file; the stated date of service precedes the policy's effective date; and two component lab codes were billed separately despite representing a single bundled panel under standard coding edits.

## SECTION 3 Procedure

CPT 99215 - Established patient office visit, high complexity. Billed amount: \$280.00.

CPT 99215 - Established patient office visit, high complexity (duplicate entry, same date of service). Billed amount: \$280.00.

CPT 36415 - Collection of venous blood by venipuncture. Billed amount: \$15.00.

CPT 80053 - Comprehensive metabolic panel. Billed amount: \$45.00.
